## EXPERIENCE

### **Indiana University** – *Web Developer/Analyst*

SEPTEMBER 2016 - PRESENT

- Create and manage multiple office websites to more easily share data with campus leaders, support data requests, and handle Testing Center functions. Primarily responsible for [irds.iupui.edu](http://irds.iupui.edu).
- Support office initiatives with marketing and design skills. Help create various reports, presentations, and graphics.
- Learning to create and update Tableau reports.

### **Purdue School of Engineering & Technology at IUPUI** – *Student Web Developer*

OCTOBER 2013 - MAY 2015

- Made the school website responsive for a more user friendly mobile experience.
- Maintained and updated site content, and monitored web support email address.

### **Emerson Climate Technologies** – *Computer Programming Intern*

FEBRUARY 2014 - FEBRUARY 2015

- Maintained and updated Classic ASP web application used to track various business processes and analyze data.
- Wrote stored procedures in T-SQL to allow employees to safely search and update the data warehouse.

## EDUCATION

### **IUPUI** – *B.S. in Computer & Information Technology*

AUGUST 2011 - MAY 2015

- Concentration in Web Development
- Took courses covering PHP, Ruby on Rails, Data Management, UX Design, Usability Testing, and Photoshop. Took one Objective-C-based iOS course.
